

Hello

Here is some news from Neets.

- **New product – VGA Extender**
- **Outgoing goods**
- **Closed for Christmas**

Neets launch a new product in our portfolio – The Neets VGA Extender

The Neets VGA Extender is a small and modular distribution system for VGA signals using CAT5 cabling, transmitting video to a wide variety of monitors and displays. The system consists of transmitter and receiver modules supporting a variety of input and output possibilities with VGA. The receiver units have a maximum distance of up to 125 meters.

With the VGA Extender you get an excellent video quality supporting resolution up to 2048x1536 at 50 meters and 1280x1024 at 125 meters. The system supports a wide range of display systems, including CRT, TFT, plasma screens and video projectors. Power supply and system cables are included in the delivery and for this product no software installation is required.

The new product is now ready in stock - order number 306-0009. and you can read more about the [VGA Extender here](#).
