Neets Control – FoXtrot ready for delivery

Hello

We have been working hard to get the Neets Control – FoXtrot ready for delivery, this month – and we have succeeded.

Even before we finished the Neets Control – FoXtrot the orders have been placed, and right now we are shipping out our first orders. The next shipment will be ready for delivery in April.

If you haven't already placed your order please contact your local dealer or distributor.

You can already download both manual and software for the Neets Control – FoXtrot. Please go to:

www.neets.dk -> login -> "Latest information about:" -> Neets Control – FoXtrot.

If you do not have a login, you can obtain it on the homepage as well.

Neets Control – FoXtrot

The Neets Control – FoXtrot is a new, small – probably worlds smallest – projector control system. The system controls:

- 1 RS-232

- 1 IR
- 1 Input
- 1 Output

Highlights and functions:

- Easy programming by Windows software
- Onside programming from front
- 8 Custom designed text buttons
- Intelligent power on function (NO power ON button)
- Audio/video Mute function
- Volume control
- Prevent power off, but the input selection can still be made
- Automatic power off if keyboard is not touched in x minutes
- External keyboard lock (prevents unwanted use)
- Room light on/off (*)
- Screen up/down (*)
- Room darkening open/shut (*)

(*) Room control functions must use Neets Control Relay Interface box.

The system is designed to work in classrooms and smaller meeting rooms. It is a small, cost effective system that fits European outlet standards. Neets Control FoXtrot comes in two colours; Polar white and Anthracite, and with frames designed by Gira and Merten you have a wide range of design opportunities.

Please read more about the Neets Control – FoXtrot and of course our other products at www.neets.dk.

If you have any questions, we are only a phone call or an e-mail away. Please do not hesitate to contact us.
